HOW TO USE THE YELLOW PAGES

When you want to BUY SOMETHING...

Suppose it's FURNITURE . . . just do this:

FIRST, find "Furniture Dealers-Retail" in the Classified Index, and refer to the page numbers shown.

THEN, pick out the dealer who interests you most, who sells the kind of furniture you want, or whose location is convenient to you.

Use the directory in exactly the same way, whether you want a florist, a druggist, a hardware store, tires, a tractor, or any one of hundreds of other products or services.

When you want to FIND A BRAND NAME PRODUCT OR SERVICE...

Suppose you want a dealer for a nationally known and trade-marked product such as a TYPEWRITER or an AUTOMOBILE:

FIRST, check the index for the page numbers for the "Typewriters" or "Automobiles" classifications.

THEN, look for the brand name of the product you're seeking. From the list of dealers under the particular nationally advertised product, *typewriter* or *automobile,* you can select a convenient dealer. It's just as easy as using the dictionary.

When you have forgotten a business firm's name but remember the address...

You may forget a business firm's name but remember its location:

For example, you want to call the laundry near 600 Main Street.

SIMPLY turn to the "Laundries" classification, after using the index to find the proper page.

HERE you will find the laundries listed, and then all you have to do is look for the address, which you know, or for the name which you may recognize as soon as you see it.

Even when you KNOW THE NAME...

the Yellow Pages will frequently help you. Suppose you want to telephone Wilson, the plumber. All the plumbers are listed in the classified at the classification of "Plumbing Contractors" on the "P" pages, and it is easier to find your Wilson among the few listed under "Plumbing Contractors", than in the long list of Wilsons in the alphabetical directory.

And please remember...

the Yellow Pages not only tell "who buys, sells, rents, repairs"—they also provide much helpful information on the products and services handled by individual firms.

Long distance is so much more personal than a letter. Express feelings—laugh, exclaim, sigh, be serious, joke around! But whatever, call a friend or loved one long distance, and express your feelings.

Telephones in color are true designer accessories—to live with and enjoy as much as the beautiful furniture and fabrics they are made to complement.

Save Time With Area Codes

When you "go" long distance go first class. Always use the Area Code with the out-of-town number.

When you're really in a hurry, it is most important to dial carefully. A wrong number reached wastes precious time.

Loans up to ~~$30,000~~ No Limit

We make loans, and nothing else. Big loans. Small loans. In-between-size loans. For any reason that's important to you. Call us now.

Large loans for homeowners. Real-estate values are up. And so is your homeowner's equity—the difference between how much your home is worth, and what you owe on it. When you're after a really large amount, you can use that equity to back a very sizeable loan from us. And that's nice to know.

Isn't there someone far away you'd like to call today? The cost is small for a Long Distance call.

Don't talk to a corporation. Talk to a person.

Think about it. General Finance has built its reputation on a people-to-people philosophy. We call it Friendly Bob Adams Service.

It's an attitude we apply to each person we help . . . whether it be a corporate executive needing temporary assistance, the head of

a household wanting to have some of the nicer things now or anyone wishing to consolidate existing obligations.

It's an attitude that enables us to know the feeling of being caught short . . . the frustration of a rainy day that puts a big dent in the budget. It enables us to know how to help.

We offer this help in amounts up to $25,000 beginning with a telephone call. Phone today. A person will answer.

It's Just Good Business and It Can Bring You More Business

It will be faster and easier for out-of-town customers to call you when you display your Area Code with your phone number on stationery and other printed matter.

You can save time, too, by using the Area Code on all of your long distance calls.

Bell System Yellow Pages

When you're really in a hurry, it is most important to dial carefully. A wrong number reached wastes precious time.

What would you like to know about telephone service? Probably the answer is in the Customer Guide section at the front of the directory.

Bell System Yellow Pages

Yellow Page advertising is seen by people *when they are ready to buy*. Make sure that your business is adequately represented.

Telephones in color are true designer accessories—to live with and enjoy as much as the beautiful furniture and fabrics they are made to complement.

It's Just Good Business and It Can Bring You More Business

It will be faster and easier for out-of-town customers to call you when you display your Area Code with your phone number on stationery and other printed matter.

You can save time, too, by using the Area Code on all of your long distance calls.

There is informational "gold" in the Customer Guide pages of your directory. See for yourself!

When you're away from home a Bell System credit card is a convenient way to call Long Distance.
